

HTML 5 Fundamentals with Pitman Training

In simple terms, HTML is a language which enables a website to be built. It may sound complicated but in fact, it is quite a simple language to grasp once you have the basics and once learnt, you'll be confidently able to format the content for a webpage or website using this renowned computing language.

This HTML Fundamentals course is ideal for beginners to HTML and you will learn the latest principles behind HTML and some of the new tags such as <audio>, <video> and <canvas>.

The HTML training course is online and will take around 5 hours and is completely flexible in that you can study wherever and whenever you want.

Designed for

This course is designed for anyone looking to become a web designer or web developer.

Objectives

The course aims to teach you new HTML 5 tags, learn how to create web worker objectives and the tricks of Geolocation Data.
