

JavaScript Fundamentals with Pitman Training

If you're working towards a career as a web designer, Java Fundamentals will give you a great foundation and allow you to fully utilise the features of JavaScript language.

JavaScript Fundamentals from Pitman Training will help you to fully explore how to design in-house, platform-independent solutions and gain an understanding of the most popular applications of JavaScript.

You'll learn JavaScript language essentials including code development, writing programmes and script for the JavaScript object model, programme flow control, form validation, image animation, frame targeting and cookie creation.

On top of which, this highly engaging course will teach you website implementation, authoring and scripting, content creation and web management.

On completion of this course, you will receive a Pitman Training Course Completion certificate*.

Designed for

Those wishing to pursue a career as a web designer/front-end developer.

Prerequisites

An understanding of web design.

Aims and Objectives

To learn how to use the features of JavaScript language to design client-side, platform-independent solutions and gain an understanding of the most popular applications of JavaScript.

* Please note that exams will need to be booked and paid for separately
