Photoshop CC with Pitman Training

Having the ability to doctor images and edit photographs is a highly sought after skill across the marketing and fashion world, but it doesn't stop there! Editing images is also a skill used by photographers, and across the corporate market place, meaning this is a talent always in demand.

By studying Photoshop CC, you will gain an understanding of hundreds of new updates and features, not just learning how to edit images and photos, but also create marketing materials and logos.

You will take a look at aspects including improved smart guides, terminology for digital images, and 3D exporting and printing.

Your local course advisor will be able to recommend other courses which will support your graphic design knowledge, and provide further information on this course.

Designed for

Design and marketing enthusiasts who are keen to develop a specialist skillset in photo and image editing, and creating marketing materials including flyers, web design elements including graphic design and logo creation. This course is also suitable for budding photography enthusiasts.

Objectives

This course is designed to help you gain the practical skills required to create your own marketing and graphic material, with the option to also take the ACA Visual Communication Certification*.

*Certification to be arranged separately.
