

# CSS Essentials

If you're interested in a career in web design, this course will help you learn how to work with the CSS (Cascading Style Sheets) language. This common language gives you more control over how your web pages look and appear.

## IS THIS FOR YOU?

The CSS Essentials course is suitable for beginners and is aimed at those wanting to train to become a Web Designer or Web Developer.

## ABOUT THIS COURSE

This online course is designed to give you the practical skills and know-how required to be able to use CSS3 to design and create eye-catching webpages.

CSS (Cascading Style Sheets) is a vital tool for anyone building a website. It cuts time and effort repeating formatting across different webpages as it allows you to set up how you want your page to appear, whether on paper, screen or other media, and then you can quickly and easily replicate this across other pages in the site.

This course has been designed to be flexible, interactive and engaging. There are educational games and quizzes throughout the course, you'll watch presentations and demonstrations led by industry experts who are there to help you gain a full understanding of the subject matter. When it comes to preparing to take the certification exam, you'll be able to sit practice exams to ensure you're fully confident ahead of the exam.

As with all our training you will have full control over the pace of your training as you can train at times and a pace that suits you. If you feel like you need to recap a session, you can simply rewind and replay any section you need.

**There are a total of 7 modules in this course.**

**Module 1** - Introduction to CSS3

**Module 2** - Understanding the CSS box model

**Module 3** - Working with page layouts

**Module 4** - Using colours and backgrounds

**Module 5** - Web typography

**Module 6** - Links, lists and tables

**Module 7** - Dynamic CSS3 properties

## AIMS AND OBJECTIVES

This course is designed to give you an introduction to CSS3 so that you are able to set the style and look of a web page and roll this out to other pages on the same site without having to repeat formatting actions separately.

## PRE-REQUISITES

There are no pre-requisites required for this course.

## CAREER PATH
