InDesign CC

If you want to embark on a career as a graphic designer or art director, InDesign is a publishing program you'll need to learn how to master. This course teaches the Creative Cloud version.

IS THIS FOR YOU?

This course is an essential for anyone who needs to create professional standard materials such as posters or brochures. If you're working, or looking to work, as a Marketing Assistant, Office Manager or PA this course will help you produce quality materials to promote your companies business. Naturally this course is also a great option for anyone looking to start a career as a Graphic Designer as this is a common Graphic Design tool.

ABOUT THIS COURSE

Adobe InDesign is an industry standard software programme that can help you create professional content such as brochures or print media.

This InDesign course teaches you the features and processes utilised in the latest version of the software, Adobe CC (Creative Cloud). Over three sessions you'll look at document layers, professional design guidelines, master pages, print and export preparation and more.

The course is run completely online so you can choose where and when you want to study. At the end of this course, you can be confident that you have the practical and hands-on skills required to impress employers and you'll gain a Pitman Training certificate confirming your achievements.

To find out more about our range of Adobe Creative Cloud training courses, speak to a Course Advisor at any of our local centres.
