

Javascript Essentials

If you're working towards a career as a web designer, Java Essentials will give you a great foundation and allow you to fully utilise the features of JavaScript language.

IS THIS FOR YOU?

If you're looking for a career as a web designer, web developer or freelance web designer, this JavaScript course will give you an excellent grounding. It is suitable for those at beginner level.

ABOUT THIS COURSE

JavaScript is a computer programming language that enables web pages to be interactive. Having a good knowledge and understanding of the JavaScript language is essential for anyone aspiring to work in web design.

This is an online course which aims to give you an overview of this universal programming language. Broken down into four modules you'll go through a series of online tutorials, presentations, interactive quizzes and exam simulators. All designed to thoroughly prepare you for the end of course assessment and enable you to put the knowledge learnt into practice.

You can choose whether you want to study in one of our training centres or online. It's designed to be as flexible as possible so that you can fit your training in around your current commitments.

For more detail and information on our range of web design courses, get in touch today!

There are 4 modules within this JavaScript training course:-

Module 1 - Introduction to JavaScript

Module 2 - Core concepts and syntax

Module 3 - Getting a handle on the DOM

Module 4 - Working with libraries

AIMS AND OBJECTIVES

The aim of this course is to give you a good introductory knowledge of this common computer programming language. By the end of the course, you should be able to put the skill into practice when looking to design and build a website.
